

To displace K-Love with LPFM would not be welcomed by me or my family. Everyday we are encouraged, enlightened and inspired by those who share our faith. I can't imagine our community losing a resource like this as many people have turned their lives around being inspired by songs only heard on K-Love. Music is a very powerful tool in any setting, but when a station operates only to serve people, instead of preying on morals stretched too thin already, losing it to "priority" stations would be a disservice to all communities affected by this potential change. I urge you, and will encourage those who listen to also write, to keep K-Love on air and rethink these proposed rule changes that could force them out. Thank You in advance! May God bless you.
